

Oct. Then we have another new machine which is being built in North Adams, Mass. I will go up there sometime during the fabricating of that machine to try to learn something about it.

I will be lucky if I get back to Montgomery any longer than just to sign the papers when we sell our house. Things are moving along at a good pace but I am sure am enjoying it. Also, the men I am working for and with are fine men. The Company, which by the way is Mount Vernon Dryer Felt Co. (which is a division of Mount Vernon Mills) is a real good Company. I am on a complete expense account until the plant moves to Greenville. The Company is even paying Brownie's and the kids' expenses to Greenville. I will be working for a Mr. Johnson who is V.P. in charge of Mfg. of Mount Vernon Mills. His office is in Baltimore. I will also be working so and very close with the
